On 20.05.2020, the Prime Minister of Greece and the Ministers of Tourism, Labor, Social Affairs, Development and Investments, proceeded to official announcements for the tourism, labour and economic issues in this phase of Covid-19, their main points being the following:

### TOURISM

#### DATES OF ACCOMMODATION UNITS OPERATION

- Seasonal hotels will resume their operation on **15.06.2020**.
- Year- round hotels will resume their operation on **01.06.2020**.
- Campings will resume their operation on **01.06.2020**.
- Yachting will resume its operation on **25.05.2020**.

#### DATES OF FLIGHTS

- Starting from **15.06**, incoming foreign flights **only to Athens International Airport Eleftherios Venizelos** will be permitted.
- Starting from **15.06**, visitors coming from foreign countries with **good epidemic characteristics** will be accepted to the country.

- The list of the above countries is not yet announced but it is expected that **Germany** may be among them. In any case, we are expecting the relevant announcement.
- Starting from **01.07**. incoming foreign flights will be permitted **to the airports all over the country**.
- Starting from **01.07**. visitors **from every country** will be accepted to Greece, with the exception of countries with bad epidemic characteristics (*to be announced later on and close to the above date*).
- **Tourists will not be tested or quarantined upon their arrival but random/ sample tests can be implemented.**

#### **MECHANISM IN CASE OF POSSIBLE COVID- 19 INFECTION**

- For the confrontation of possible Covid-19 cases relevant controls could take place.
- **It will be mandatory to appoint a doctor to each accommodation unit for the first valuation.**
- **A coordinator should be appointed to each accommodation unit for the handling of Covid- 19 cases.**

#### **HOTE OPERATION PROTOCOLS**

- **No hotel operation protocols were announced but they are expected within the next few days. Our provision on this matter is that the protocols to be implemented will not be strict (*with the exception of the appointment of the doctor- already announced and maybe the way of food serving etc*) given the short notice for their implementation till the opening of the hotels.**
